

BCS Allegient offers a wide range of professional support services in business management, communications, systems engineering, analysis, mission execution, and organizational performance. We have both the experience and expertise to rapidly develop and deploy solutions to achieve critical objectives.

Systems Engineering Technical Analysis (SETA)

BCS Allegient stands at the forefront of delivering integrated systems engineering and technical analysis, empowering federal agencies to achieve strategic dominance in national security and energy resilience. With decades of experience supporting classified programs under a Top Secret (TS) Facility Clearance, we excel in advancing Command, Control, Communications, Computers (C4) Intelligence, Surveillance and Reconnaissance (ISR) systems, unmanned aerial vehicles (UAV), hypersonics, and high-powered microwave systems. Leveraging artificial intelligence and data-driven insights, we integrate cutting-edge technologies into mission-critical operations, enhancing the effectiveness of U.S. defense capabilities and ensuring technological superiority.

Services

- Science & Engineering Studies
- Energy Audits & Benchmarking
- Project Monitoring
- Technology Studies & Feasibility Analysis
- Peer & Program Review Support
- Emergency Preparedness & Response
- Situational Assessment & Reporting
- After Action Reporting

Systems Engineering Technical Analysis (SETA)

Client Spotlight

U.S. Army Office of Energy Initiatives (OEI)

BCS Allegient provided OEI with subject matter expertise in alternative and renewable energy systems, concept and detailed design analysis, and implementation of energy development strategies. Our licensed Professional Engineers and Certified Energy Managers provided solutions to OEI leadership related to system development, improvement, and optimization efforts. BCS Allegient engineers conducted site visits and coordinated with utilities, private sector investors, and the U.S. Army Corp of Engineers and Defense Logistics Agency Energy to develop and deploy energy projects—from opportunity development, through contracts and agreements, through project acquisition, construction, and operation.

Certifications

BCS Allegient values ongoing professional development and recognizes the importance of keeping up with industry standards and best practices in order to best serve our clients. We employ a talented team that holds several well-respected professional certifications and licenses.

Contract Vehicles

- OASIS+ (M&A) Small Business
- OASIS+ (R&D) Small Business
- SeaportNxG
- GSA MAS
- DOE TEPS BPA

In addition to those listed above, BCS Allegient utilizes direct award pathways through Joint Ventures for efficient, accountable, and expedited procurement.
